

The LogTag Temperature Recorder incorporates an external temperature sensor uniquely arranged in a recess in the case. This design protects the sensor from damage but still provides a fast reaction time more associated with remote temperature sensors.

Using the LogTag Interface and LogTag's freely available companion software *LogTag Analyser*, the LogTag is easily set-up for recording conditions including delayed start, sampling interval, number of readings, continuous or fixed number of readings and configuration of conditions to activate the *ALERT* indicator.

Readings are downloaded using LogTag Analyser which provides facilities for charting, zooming, listing data statistics and allows exporting the data to other applications such as Excel.

## **Product Highlights**

- Alert indicator indicates if readings are outside of preset limits
- OK indicator indicates if still recording and if readings within configured limits
- *Inspection mark* in log by push button
- Push Button Logging start
- Rapid Download! Takes only seconds to download recordings
- 'Pre-Start' logging Logtag can be configured to record even if it has not been started.
- High performance at low cost
- *Credit card sized case* thin enough to be easily mailed "letter rate".
- Real time clock records time & temperature simultaneously
- **Easy** to use LogTag Analyser software that runs on any PC configures LogTag for recording then downloads resulting data for analysis. Data can also be exported to formats compatible with other applications such as Excel
- Highly reliable and accurate
- Re-calibration to achieve higher accuracy possible

## LogTag TRIX-8 Technical Specifications

Part Order Code	TRIX-8
Temperature Sensor Measurement range	-40 ~ +85°C (-40°F ~ +185°F)
Recorder operating temperature range	-40 ~ +85°C (-40°F ~ +185°F)
Rated Temperature reading accuracy $^*$ $\pm 0.5^{\circ}\text{C for } -20^{\circ}\text{C} \sim +40^{\circ}\text{C}$ better than $\pm 0.7^{\circ}\text{C for } -20^{\circ}\text{C} \sim -30^{\circ}\text{C \& } +40^{\circ}\text{C} \sim +60^{\circ}\text{C}$ better than $\pm 0.8^{\circ}\text{C for } -30^{\circ}\text{C} \sim -40^{\circ}\text{C \& } +60^{\circ}\text{C} \sim +80^{\circ}\text{C}$	Rated Temperature reading resolution <sup>#</sup> less than 0.1°C for -40°C ~ +40°C, less than 0.2°C for +40°C ~+80°C
LogTag TRIX Temperature Recorder Rated Temperature reading accuracy	LogTag TRIX Temperature Recorder
*Actual performance is normally much better than the rated values.  Accuracy figures can be improved by recalibration.	Rated native temperature reading resolution  1.0°C 0.9°C 0.8°C 0.8
Capacity	8000 temperature readings (16Kbytes memory)
Sampling frequency	adjustable, 30 sec to several hours
Download Time	Typically with full memory in less than 5 seconds depending on computer or readout device used.
Environmental	IP65
Power source	3V Lithium - replaceable by qualified technician
Battery life	2~3 years typical use – longer (up to 5-10 years) if recorder is hibernated between uses.
Size	86mm(H)x54.5mm(W)x8.6mm(T)
Weight	35grams
Case Material  EMC Compliance	Polycarbonate Tested and complies with EC EMC directives (EN 50081-1:1992 & EN 61000-6-1:2001)
EN12830 Compliance	Tested and complies to EN12830:1999 for transport, storage and distribution of chilled, frozen, deep frozen, quick-frozen food and others.
